## sightseeing point

**Mt. Fuji**

Mt. Fuji is an active stratovolcano, straddles the boundary of Shizuoka and Yamanashi Pref. It is a well-known symbol of Japan and frequently depicted in art and photographs. Also, it affects a climate or the stratum geologically. The mountain is representative part of the Fuji-Hakone-Izu National Park, all of which is designated as a special natural beauty spot. It was added to the World Heritage List as a Cultural Site in 2013

**The 5th Station**

The 5th station is used as the entrance for climbing as vehicles are available from Mt. Fuji toll road. There are a lot of tourists, enjoying for a short break, souvenir shop and shrine.

**Fuji-Q Highland**

One of Japan's most popular amusement parks at the foot of Mt. Fuji. It is best known for its thrilling, record-breaking roller coasters and elaborate, anime-themed rides and attractions. The main 4 roller coasters, FUJIYAMA, DODONPA, Eejanaika, Takabisha, have high quality of scariness, which attracts many people in all over Japan. "Super Scary Labyrinth of Fear" is also famous as the

**Oshino Hakkai (We might come here in case of inclement weather)**

"Oshino Hakkai" is a spring water fountain in Yamanashi Pref. Meltwater from Mt. Fuji is filtered over the course of several decades between the lava layer in the underground, and is divided to 8 fountains.

It is appointed to a natural monument of the country designation. Also, it was registered as a part of the World Heritage Mount Fuji of construction assets in 2013.
